DEAL BRIEF

What we're delivering

Aivuna provides an AI customer-support assistant for Noma Journeys' guests, answering questions about bookings, changes and refunds by chat and email, from a 1 February 2027 launch. Go-live depends on Noma providing access to its booking system by 1 December.

- AI assistant answering guest questions on chat and email
- Booking system connector, so the assistant reads each guest's booking
- Handover of conversations the assistant cannot resolve to Noma's human agents
- Implementation and configuration, 45 person-days; two training sessions
- Weekly project status meeting during implementation

LH Confirmed by **Liam Hart**, Account Executive · from draft SOW, 12 Oct
